DOOR COMPONENTS IS ON FIRE!

We're announcing five new products in five days

DAY 3

We're half way through the week of Door Components' "Five Announcements in Five Days."

Starting today, we are able to tell you: "Yes, we stock glass for most sizes of door lites, and we can install it for you."

Gone are the days of forgetting to order glass for the door lite, or having that extra step of glass installation left when the lite kit arrives. You asked for a complete product, and now we deliver it.

To save steps and avoid mistakes, just tell us to "put glass in that lite" when we install an integral lite.

As with all Door Components products, we specialize in custom orders and rapid delivery. And every Door Components product is 100% American made.

Watch your email for tomorrow's announcement of another new product from Door Components.

For more information about the new integral door lite with glass, or any other Door Components products, contact your Door Components representative.
