## **New Cut Sheets and Technical Data on new Door Components Website Wide Range of Industry Information in online Library**

*November 9, 2009* FONTANA, Calif. — A library of technical information about hollow metal doors and frames is now available online on the new Door Components website.

Bob Briggs Jr., president of Door Components, said, “We are actively embracing the always-available capabilities of the Internet in order to improve the speed and ease of service to our customers and to the industry. People are increasingly working outside of the usual 8 to 5 work week, and our new website will make it easier for them to access information about Door Components products at the time that is most convenient for them.”

The new Library section of the website includes:

- A completed update set of Door and Frame cutsheets
- Fourteen SDI technical documents
- Twenty HMMA technical documents
- LEED certification letter
- Frequently requested forms including Substitution Request and Credit Application

In addition to the Library, the new website has updated Technical Data sheets for many of the Doors and Frames, conveniently located on the individual product page.

The new website also features an updated project Gallery, with images from many spectacular building projects using Door Components doors and frames.
